BOWLAND MATHS

PointZero

Getting started

This case study is in the form of a self-contained application. Versions are available for MS Windows and Mac OS X. The website or DVD should have given you the correct version for your computer.

All of the required resources can be accessed and printed from within the application.

To start the application, double-click ***Start.***
To access the Teacher Notes, click the ***Teacher Notes*** button from main menu.

If you are using a computer or network with strict security controls you may need to seek advice from your ICT support staff to enable you to run this software.

Hardware & software requirements

The minimum Windows PC hardware specification is:

- 900MHz or faster AMD/Intel processor with 128MB RAM
- 50MB free hard disk space
- Display resolution of 1024 x 768, 24-bit colour
