

Alien Invasion

Getting started

This case study is in the form of a self-contained application for PCs with MS Windows. All of the required resources can be accessed from within the application.

To start the application, double-click **Start**.

If you are using a computer or network with strict security controls you may need to seek advice from your ICT support staff to enable you to run this software.

If you are unable to start the application, the teacher's guide and introductory material can be found in the **additional_resources** folder.
