

Transcript 2.5: Log Inc CCTV footage

It's night time. ANDY is holding the camera up to film himself. Handy cam and night vision shots.

ANDY:

Hi. This is Andy. We've been through the night so umm ... we've got some vital evidence. But we're all getting a bit jittery now because ... umm I spotted some guards earlier on and I'm sure they were armed. So, Anna's sort of umm ... trying to hack into their security cameras just to see what we're up against.

ANNA:

Talking to the others as she sets up the equipment.

I just need to crack this. It shouldn't be too difficult. There doesn't seem to be much of a fire wall to speak of ... Right, I'm in! Let's see what there is to see...

ANNA is working on the laptop. She selects a camera and enlarges it to full screen. We see night vision CCTV camera footage of armed security guards patrolling with guard dogs. Torches sweep across the floor as they walk.

ANNA:

Guns and dogs... it's a bit more than I was expecting.

JON:

We're just gonna have to play this as safe as possible.

ANDY:

Play it safe? They've got guns! And dogs!

JON:

Chill out Andy, all right? What I mean is, we're gonna have to sit tight and watch them, all right? They don't know we're here but we know exactly where they...

ANNA:

We're here (*points to area of forest on the screen*)... and they're... (*points towards a clearing. In the dark torches sweep the area near the team.*) ...just over there! Shut everything down!

Torch beams light up the undergrowth. Guards' voices. Dogs barking. Camera turns off and the screen goes black.
