

# PREDICTING TRENDS - HOW MANY TO BUY

NAME \_\_\_\_\_

DATE \_\_\_\_\_

There were about 60 million people living in the UK in 2001 (UK Census).

On average, across the UK:

- 66 people in every 1000 are between 10 and 14 years of age
- 62 people in every 1000 are between 15 and 19 years of age
- 60 people in every 1000 are between 20 and 24 years of age

The most recent UK Census will give you more accurate data for your town or area. For example, look at Table KS02 in the document:
