Getting started

This case study comprises a collection of lesson plans, handouts and other resources, and a piece of software (for PCs with MS Windows).

Double-click on **Start** for an overview and index page.

Alternatively, the individual files can be opened from the **content** folder,

Hardware & software requirements

The *ByPass* software requires a PC with Microsoft Windows – however, see the *Pin Boards Guide* for one way to use this case without a PC.

Adobe Reader or similar is required to view the guides and handouts. Adobe Reader is available to download for free from:
http://www.adobe.com/

Microsoft Excel or an alternative (such as OpenOffice) is required in order to use the *calculators and converters* spreadsheet.

OpenOffice is available from http://www.openoffice.org.

A free MS Excel Viewer (Windows only) is available from:
http://office.microsoft.com/downloads/2000/xlviewer.aspx
